BIOPHOTONICS

LASER WORLD OF PHOTONICS 2019

24 – 27 June 2019, Messe München, Munich, Germany

Biophotonics is multifaceted and has significant potential for innovation. The industry will come together from June 24 to 27, 2019 in Munich for LASER World of PHOTONICS, the world's leading trade fair with congress for photonics components, systems and applications. Half a year before the fair, more than 130 international exhibitors from all areas of biophotonics have already announced their attendance. Studies predict that the sector will achieve global sales of 85.5 billion Euros by 2020—with annual growth of seven percent.

COSMETIC

COSMETIC BUSINESS

International trade fair of the cosmètics supplying industry

5 – 6 June 2019 MOC event centre Munich

CosmeticBusiness is the one and only meeting place for the cosmetics industry and its suppliers in Germany, Europe's largest cosmetics market. Once a year, international cosmetics companies and their suppliers come together to develop new ideas, exchange experiences and foster contacts.

The sector can find all the important things that are necessary for the creation of new cosmetic products and their successful presentation – starting with the raw materials and continuing with manufacture and packaging

RECYCLING

ACI's European Masterbatch Summit

15 – 16 May 2019 Dusseldorf, Germany

With the new European Directive on plastic waste & circular economy targets, and the necessity for recyclable and sustainable plastics, the Masterbatch industry is facing changes in the near future. It will not only have to adapt to them, but also work together with other players in the industry, to meet those targets and thrive.

The conference will also discuss how to overcome negative perceptions of specific substances using guidelines; how innovation will help the Masterbatch industry thrive; tailor masterbatches for specific industries; as well as how to prosper in a competitive market.

The European Masterbatch Summit 2019 will bring together senior executives and experts from Masterbatch companies, Equipment & Instrument Producers, Chemical Distributors, leading service providers, as well as other influential stakeholders from the value chain to discuss the latest challenges and developments making an impact on the industry.

TECNOLOGY

E-MOBILITY & CIRCULAR ECONOMY EMCE 2019

1 – 3 July 2019, International Conference, Exhibition, Demo Rides. Tokyo, Japan

The E-Mobility revolution is undeniable. The International Energy Agency expects the number of electric cars on the road to increase from 2 million in 2016 to 70 million in 2025. Which impact will this have on Ecodesign, the Circular Economy, Recycling and Raw Materials Supply?

At EMCE 2019, the industry will present its latest services, technologies and future designs in the field of E-Mobility, Power Distribution and Energy Storage.
